the india experience...

During her recent stay in New Delhi, the renowned Dutch artist, Gerdine Duijsens painted a new range of her well known voluminous happy ladies and gentlemen enjoying drinks and dinners.

In India she painted on prepared canvas. This canvas was previously used on Indian trucks and lorries! Back in the Netherlands the paintings were brought to perfection and framed on aluminium frames and given a protective varnish. The India experience paintings are unique in its kind and an enhancement to her existing oeuvre. Formats are both landscape and vertical and in various sizes.
