... The image fragmentation, clear-cut colour shapes and the reconstruction in a dynamic mosaic are the “trademark” of Safir ...

Noemi Safir was born in Montevideo, Uruguay in 1971. She lives and works in Tel Aviv, Israel and creates multi-coloured paintings of faces and city views. On May 21st, Gallery Patries van Dorst will open the first solo exhibition of Noemi Safir in The Netherlands, Wassenaar.

The portraits of Noemi are usually based on (anonymous) faces, which form their identity during painting. They express Noemi’s own emotions and experiences, showing her love for life, beauty and strength. At the same time, these paintings allow the viewer to shape their own interpretation. With her large palette of colors and delicate brushstrokes, she creates real faces of beauty.

Art Gallery Patries van Dorst is delighted to be the new agent of Noemi Safir in the Netherlands.

The image fragmentation, clear-cut colour shapes and the reconstruction in a dynamic mosaic are the "trademark" of Safir. The women shining in her canvas are displayed in a mosaic of bright colours. The portraits are often 180 x 120 cm.

In her home country, but also in Miami, New York, San Francisco, Singapore, Korea, India, Paris, Germany, Switzerland, Denmark and Australia, Noemi rapidly acquired many art collectors and enthusiasts in a short period of time. Safir's paintings will be on exhibition until July 21st.

Art Gallery Patries van Dorst is located in the coach house of Castle the Wittenburg in a beautiful leafy area in Wassenaar. In addition to the permanent exhibition, there are annually 8 to 10 exhibitions of contemporary modern (international) artists. The gallery is open Mon-Sun from 14:00 to 18:00 (check prior to your visit on the website or call).

At the opening you are also invited to join us also at the wine tasting offered by: Cathy Moerdijk, (winelady of the year 2016) from www.wellofwine.nl You will be surprised what excellent wine qualities with superb tastes Israeli wineries have to offer.
